Re: Notification of Asbestos Inspection and Management Plan Availability

The Asbestos Hazard Emergency Response Act (AHERA) requires all schools to conduct detailed inspections to identify all asbestos containing building materials (ACBM) that may be present in the school environment. AHERA requires the inspection results and the associated Management Plan to be submitted to the Louisiana Department of Environmental Quality (LDEQ). A copy of the Management Plan must be maintained at the administrative office for review by the public.

St. Jean Vianney Elementary School does not contain any asbestos materials. A copy of the Management Plan is available at the school for review.

This letter of notification is an annual requirement to the public. If there are any questions, please contact the Designated Person, Wes Jennings, at 225-291-9841 for more information or assistance.
